BY BOUTELLE BROTHERS.

That terrible wash-tub! This is the way it looks to the women who do their washing in the old-fashioned way! They dread it-and no wonder. because they won't use Pearline. Use Pearline use it just as directed—soak, boil and rinse the

clothes and the wash tub won't be a bugbear. You won't have to be over it enough for that. No hard work-no inhaling of fetid steam no wearing rlibbing-no torn clothes -nothing but economy.

Send tell you this is no good as for the same the same that the same tell you this is no good as for the same tell you samething in place of Pearline, be hones—gend it back.

AND

THURADAY, DECEMBER 17, 1394

Will Benefit Both. The New York Evening Post attempts to turu its sarcasm against the manusacturers, in connection with, the proposed hearings to be given by the Ways and Means Committee, referring to them as "disinferenced patriots," marching to hair, moving eyes. Washington Coxey-fashlon, anxious only that the dear workingmen may have good wages. 7 Baresam is a keen weapon when It can be used to advantage, but in this case its edge is turned by somestub born facts. When the manufacturers appeal for needed protection they act Lot 2. 24 dozen Dolla, worth 30c only speak for their own interests, but et coly for labor as well. It muy please the Post to socer at the "dreary old round" of protective tariff making, but, the dact remains that the dreariness, began with the unmaking of a sensible protective tariff and the substitution of the finconsistent absorblty" now in force. A proective tariff means increased business operations, which in turn means increased employment of labor at re-munerative wages. Labor has suffered an mense loss in enforced lulcress and reduction of wages since the business offthat country was demoralized, by Dieveland, Wilson, Gorman & Co. The remedy is a protective tarial and that'remedy is to be applied, the dyspeptic opposition of the Post to the contrary notwithstanding.

The Lumber Interests.

The disastrous effects of the existing tario law have been especially severe on the lumber interests, and the following resolutions adopted at a meeting of the lumbermen, 'representing the different States, at a meeting held in Cincinnat! Tuesday, will have the approval of those encaged in the ladnerry in this State: whereas, the plantag of lumber on the free list by the existing 'tailf' law act only promotear rubous competition on lumber from Canada, but Adlactioninities against lumber as 'compared, with other, manufactures.

Therefore, be it resolved, that this conlon, representing the entire lumber stry of the United States in all lines, respectfully petitions. Congress to place lumber on the dethable list, and be a fur-

Resolved, that each lumber dealer in the United States by urged to furnish to the Senators of this State and to the member of Congress from his distric-full information in relation to the needs and conditions of the lumber, industry

and conditions of the lumber industry so that they can consistently useful in the passage of this measure. I have been consistently recognize the fact that, unjust discrimination provides and they unjust discrimination frowalls in goods countries in South America and disconference as against American lumber, and that we calledy oppose such unjust discrimination, and we hooke the said of the United States Coursess for the purpose of removing the same, other my reciprocity or otherwise.

The necessity of a duty on lumber is recognized by nice of all parties. In Maine where, the laduatry has suffered greatly as a result of free trade. 1 '

The Democratic Division.

In view of the reptere is the Democratic party the Chleago Times-Herald has undertaken to solve the question "will Democracy's two wings over flap together.". To this end it has sent out a. series of questions to the leaders of the different fuetlons as follows: 1. The probable basis of reorganiza-

Is the si ver jesue likely to bushandoncel?

3. Will the gold and ellver whogs come together?

Answers to these fourstions are pub-Halled from a number of Democrats. The silver men, as ha rule, are very ditter toward the geld men. Elated with their brief ecution of the party organization the allver men declare that the bolters." will have to accept the free coinege issue. Governor Aligeld, for instance, says it is nesure to talk about a recriganization of the party bus it could not be bettered in any way, thank or form." The effer wing, in his judgment, is other only wing and all yer the only issue."

Some of the sound money men are equally pronounced in their position, ville others express a hope for a reuplen of the party, but none of them seem to be able to formulate any plan of compromise. The conclusion reached by the Times-Herald as a result of iter investigation is that "there is as yet no way open for harmony lo the Democratic ranks."

The Popular Vote

The Philadelphia Press recruitly complied a moulated statement of the pepuar vote in the November election, from which it deducts the following interesting facts: The most strking fact in the table, lettic size of the total vote. With the returns pow in an aggregate of 13,-818,001 [s shawn, und this total, with mabulate be increased a few thousand more. This is in increase of 1,737,892 cover the poll of 1802. The total vote in the while country, in 1830 was only [1,498,295] so the loureare in the vote this rear over 1892 is larger by .. 283,657 ithab all the votes east for the five candidates v.lucran for President slaty years ago. There has apparently been a stendy infrom the perceptage of votes east in Presidential elections to population. As the initional census is taken only once to ting serra and as a Presidential election occurs in courses gents only obco overy twenty years, it is possible to make an accurate comparison of lyotes and popu-Intion only once in twenty years.
In 1840 the popular poll was 2,410,779

and as the census of that year showed a population of 17,059,453 the voters were in the proportion of about one in seven. Again in 1960 with a population of 31,-443 321 and a poll of 4,070,953 be voters were a little below one in seven of population, Twenty years later in 1880 deco the popular vote, was 0,200,406, and can the national census of that year showed a population of 60,155,783 the voters were in the proportion of about one to five and a balf of penulation. come of this increase was doubtless due to the enfrarelitement of the slaves. If the total vote of this year reaches 13,000,000, as it probably will when the returns are all in, and the proportion of voters to population was the same as in 1880 it would indicate a present population of 76.450,000. It is probable, however, that the proportion is too large and that it may be a court of macroner, it will not be much over one voter to ave of population, indicating appointation of Maine, insolven better. of population, indicating a population of

of population, indicating appopulation of about 71,000,000 in the country.

There are four States which cast over, 1,000,000 votes each, namely, Illinois, New York, Ohio, and Pennsilvania.

There four States which cast over, 1,000,000 votes each, namely, Illinois, Country of Pennsilvania, Illinois, New York, Ohio, and Pennsilvania.

There four States which cast over, 1,000,000 votes each, namely, Illinois, Country of Pennsilvania, Illinois, Occupant of Pennsilvania, Illinois, Pennsilvania, Illinois, Occupant of Pennsilvania, Illinois, 11 in Chapter four States are in the North and four are in the South. Some States east a physicine all y large vote. The total in Indiana, for instance; was 637,128, which on the busts of one vote to each flyo of population would in-dicate a population of about 3,150,000. As the State had 2,102,404 population in 1890 this would find cate an herense of rearly 1,000,000 in sixt years. The vote of Ohiolis still more marked, the total being 1,014,302, which on the thists of one voter to each live of population would show a population in Ocio of over wonto salw a population to the of every 5,000,000, or an increase of about 1,400,000 gines 2800. [11] is probable that the increase has not been so large to eletter. Stite and that the pictore are the first the interview of the original forms the first the intervention of the little of the increase in the election brought out a large part of the indiffurent voters. Other States also show a phenomenal in-crease in their vote but none spilarge as Ohio or Individ. The election was in many respects a remarkable one and it will probably remain a landback for for some years to done.
